

Press Release – Redwood City (CA), USA & Basel, Switzerland August 8<sup>th</sup> 2006

## **Integrated Workflow Created Between Genedata and Ingenuity Software**

Genomics integration solution Genedata Expressionist<sup>®</sup> now works interoperatively with Ingenuity Systems' Pathways Analysis application, according to an announcement made today by Genedata Inc. and Ingenuity Systems. Researchers will now experience a seamless workflow when linking genome-wide experimental data with disease-relevant information about genes, proteins and biological pathways.

**Ingenuity** enables researchers to model, analyze and understand complex biological systems foundational to human health and disease. The Ingenuity products include pathways analysis software and knowledge bases for biologists and bioinformaticians, and enterprise knowledge management infrastructure, content and services for leading pharmaceutical and biotech companies. Ingenuity was founded in 1998 and is headquartered in Redwood City, California with offices in Germany, Switzerland, France, the United Kingdom, and Japan. [www.ingenuity.com](http://www.ingenuity.com).

**Genedata** specializes in discovery informatics for biotech, pharmaceuticals and the life sciences. The Company offers expertise in research informatics combined with open and scalable computational solutions. Our solutions include Genedata Phylosopher® for integrating, structuring, and analyzing research data. Genedata Screener® for high throughput screening analysis. And Genedata Expressionist® for omics data integration, processing and analysis. Founded in 1997 as a privately held spin off from Novartis, Genedata is headquartered in Basel, Switzerland and has branches in Munich (Germany), Boston (USA) and San Francisco (USA). The Company is also represented in Japan, Taiwan and Singapore. For more information about Genedata, please visit: [www.genedata.com](http://www.genedata.com).
