Wyeth Extends and Expands its Licensing of Ingenuity Pathways Analysis

Ingenuity Pathways Analysis 3.0 to be deployed broadly to all researchers at Wyeth

Redwood City, CA – October 25, 2005 - Ingenuity announced today that Wyeth Pharmaceuticals, Inc. (NYSE: WYE) has extended and expanded its licensing of the Ingenuity Pathways Analysis software and will be deploying it broadly across its discovery and development organizations worldwide.

Ingenuity Pathways Analysis (IPA) 3.0, released last month, enables researchers to model, analyze and understand the complex biological systems at the core of life science research. With Ingenuity Pathways Analysis 3.0, scientists can integrate their own biological discoveries into Ingenuity networks, enabling more powerful computation and functional analysis. IPA 3.0 allows scientists to create customized pathways for particular targets, biomarkers, disease areas, and processes, leveraging Ingenuity's broad knowledge base of biological relationships between genes and proteins, cells, tissues, and diseases.

"Wyeth continues to embrace pathways analysis software as a critical element to successful therapeutic research and development," stated Peter DiLaura, Vice President, Sales and Customer Support. "Ingenuity is pleased that Wyeth is both renewing and expanding its use of Ingenuity technology, and Ingenuity will continue its commitment to provide the highest quality pathways solutions available today."

Ingenuity Pathways Analysis is available as a web-delivered, hosted, or deployed solution. Fully functional complimentary trials are available to qualified scientists at www.ingenuity.com/trial.

About Ingenuity®

Ingenuity enables researchers to model, analyze and understand complex biological systems foundational to human health and disease. The Ingenuity products include pathways analysis software and knowledge bases for biologists and bioinformaticians, and enterprise knowledge management infrastructure, content and services for leading pharmaceutical and biotechnology companies. Ingenuity was founded in 1998 and is headquartered in Redwood City, California with offices in Germany, Switzerland, France, the United Kingdom, and Japan. www.ingenuity.com.
